Skin:

Repeated exposure may cause skin dryness or cracking.

Eyes:

May cause eye irritation.

Ingestion:

It may cause pulmonary edema and chemical pneumonia. May cause death.

Do not use water jet on liquid's surface.

5.2. Special hazards arising from the substance or mixture:

Product is easily flammable. Product floats on water and may be ignited more than once.

Vapours are heavier than the air and they also float above ground. They can be ignited from a distance.

5.3. Advice for firefighters:

Firefighters should wear self-contained breathing apparatus and full protective clothing. In case of fire, warn the people nearby and evacuate unprotected and untrained personnel from hazard area. Notify relevant emergency services. If possible, remove the containers away from the influence of fire and high temperature. Water may be used to keep fire-exposed containers cool until fire is out. The after burning residues should be removed

SECTION 6. ACCIDENTAL RELEASE MEASURES

GUM WET

Safety Data Sheet

6.3. Methods and material for containment and cleaning up:

In case of unexpected release of the substance into the environment, inform appropriate services about the emergency and remove any source of ignition. Prevent spills from entering sewers, surface water or groundwater. If it is possible, confine and contain the spill by closing the flow of the liquid, plug the damaged container and put it into leakproof wrapping. For a larger spill, make a dike around the outside edges of the spill and use absorbent materials (sand, sawdust, minced limestone). Store clean-up materials for disposal as hazardous waste. Decontaminate polluted area with water.
